

Advisory

Regarding Forward-Looking Statements

PEYTO

Exploration & Development Corp.

This presentation contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify forward-looking information or statements. More particularly and without limitation, this presentation contains forward looking statements and information concerning Peyto Energy Trust ("Peyto") production; reserves, resources and gas in place; undeveloped land holdings; reserve life index; product mix; business strategy; future development and growth prospects, profile targets and rates; prospects; asset base; tax pools; drilling locations and inventory, down-spacing potential; exploration risk; access to capital; future cash flow, value, debt levels and debt to cash flow; capital investment and expenditure programs and the funding thereof; anticipated cash-on-cash yield; net asset value; credit facility; and statements with respect to levels of dividends to be paid to shareholders, dividend policy, and the timing of payment of such dividends.

The forward-looking statements and information are based on certain key expectations and assumptions made by Peyto, including expectations and assumptions concerning prevailing commodity prices and exchange rates, applicable royalty rates and tax laws; future well production rates; reserve and resource volumes; the performance of existing wells; the success obtained in drilling new wells; and the sufficiency of budgeted capital expenditures in carrying out planned activities; and the availability and cost of labour and services. Although Peyto believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward looking statements and information because Peyto can give no assurance that they will prove to be correct.

Since forward-looking statements and information address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to, the risks associated with the oil and gas industry in general such as operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of reserve and resource estimates; the uncertainty of estimates and projections relating to reserves, resources, production, costs and expenses; health, safety and environmental risks; commodity price and exchange rate fluctuations; marketing and transportation; loss of markets; environmental risks; competition; incorrect assessment of the value of acquisitions; failure to realize the anticipated benefits of acquisitions; ability to access sufficient capital from internal and external sources; and changes in legislation, including but not limited to tax laws, royalties and environmental regulations.

Readers are cautioned that the foregoing list of factors is not exhaustive. Additional information on these and other factors that could affect the operations or financial results of Peyto are included in reports on file with applicable securities regulatory authorities and may be accessed through the SEDAR website (www.sedar.com). The forward-looking statements and information contained in this presentation are made as of the date hereof and Peyto undertakes no obligation to update publicly or revise any forward-looking statements or information, whether as a result of new information, future events or otherwise, unless so required by applicable securities laws.

The information contained in this presentation does not purport to be all-inclusive or to contain all information that a prospective investor may require. Prospective investors are encouraged to conduct their own analyses and reviews of Peyto and of the information contained in this presentation. Without limitation, prospective investors should consider the advice of their financial, legal, accounting, tax and other advisors and such other factors that they consider appropriate in investigating and analyzing Peyto.

Reserves

The recovery and reserve estimates of Peyto's crude oil, natural gas liquids and natural gas reserves provided in the presentation are estimates only and there is no guarantee that the estimated reserves will be recovered. Actual crude oil, natural gas liquids and natural gas reserves may be greater than or less than the estimates provided herein. Reserve and production volumes are quoted before royalty deductions.

Barrels of Oil Equivalent

"Boe" means barrel of oil equivalent on the basis of 1 boe to 6,000 cubic feet of natural gas. Boe's may be misleading, particularly if used in isolation. A boe conversion ratio of 1 boe for 6,000 cubic feet of natural gas is based on an energy equivalency conversion method primarily applicable at the burner tip and does not represent a value equivalency at the wellhead.

Original Gas in Place

Original gas in place includes both discovered and undiscovered resources, and there is no certainty that any portion of the undiscovered resources will be discovered and, if discovered, that any volumes will be economically viable or technically feasible to recover or produce. Original gas in place also includes volumes that have already been produced from such accumulations. Readers should not unduly rely upon estimates of original gas in place in terms of assessing the combined company's reserves or recoverable resources.

Prices

All dollar values are quoted in Canadian currency.

PEY.TO

Who We Are

- ☀ 5th Largest Natural Gas Producer in Canada
- ☀ Pure Play Alberta Deep Basin – ~95,000 boe/d Gas & NGLs
- ☀ Returns Focused Strategy – Avg ROCE 16%, ROE 30% over last 19 yrs, among highest in industry
- ☀ Long Reserve Life Asset - 7 yrs PDP, 18 yrs 2P, sweet gas, no mobile water
- ☀ Lowest Cost Producer - \$0.83/mcfe (\$4.99/boe) 2017 total cash costs
- ☀ Own and Control - Operate 99% of production, Own/operate gas plants

Monthly Dividend:	\$0.06/share (CTD YE17 \$18.29/share)
Shares O/S:	164.9 million (3% insider ownership)
Q3/18 Long Term Debt:	\$620 million (senior unsecured notes, 3.7-4.9% CND) \$547 million (\$1.3B unsecured bank facility) \$1.167B (\$1.92B total capacity)
Enterprise Value:	\$3 billion (\$11/share)
Full Time Employees:	54

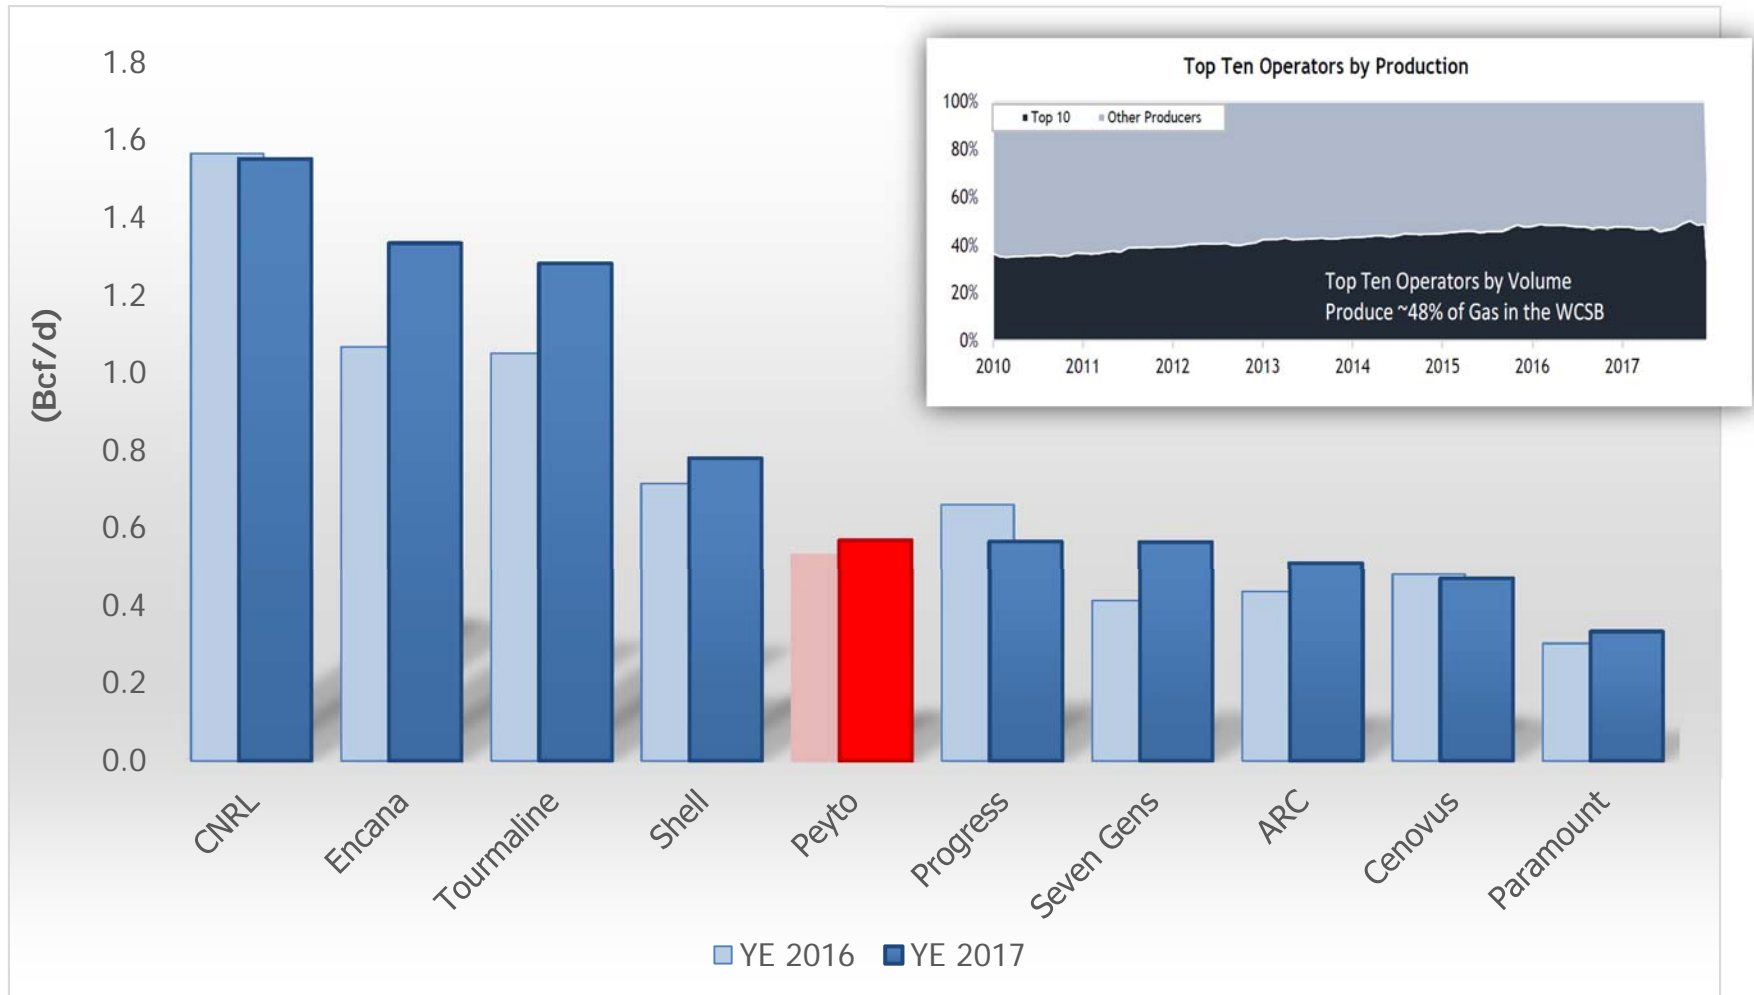

Cash costs are royalties, operating costs, transportation, G&A and interest

BOE factor - 6 mcf = 1 bbl of oil equivalent

Total Shareholder Return

"Over time, the Peyto model is designed to deliver a superior total return with growth in value, income and assets."

Peyto Exploration and Development Corp. 20 Year Trading History

BOE factor - 6 mcf = 1 bbl of oil equivalent
Reserve and production volumes are before royalty deductions

Peyto's History

What We've Done Over 20 Years

- ☀ Goods and Services Purchased = \$5.8 Billion
- ☀ Land Purchased = 646 sections
- ☀ Wells Drilled = 1,512
- ☀ Reserves Discovered = 5.8 TCFe (YE 2017)
- ☀ Production Recovered = 1.6 TCFe
- ☀ Royalties Paid = \$852 million
- ☀ Profits Generated = \$2.4 Billion

Peyto's Contribution

We Heat Your Homes

"Peyto's gas has half the CO₂ emissions intensity of the rest of the CND gas industry and gas is half of coal when burned. The world needs more Peyto gas!"

"Alberta Energy states that typical Alberta households use approximately 120 GJ of natural gas per year. As the 5th largest gas producer in Canada, in 2017, Peyto provided the natural gas to keep all the homes in AB and SK warm last year."

The Peyto Strategy

The Peyto Strategy

What We Believe

"We believe in the future of natural gas and in partnering with shareholders to make a profit, not by trying to make your money, our money."

We believe that:

- ✱ *“Nature’s gas is the fuel for the future.”*
- ✱ *“Our focus should be on maximizing the return on invested capital – your capital.”*
- ✱ *“By selectively and efficiently investing capital at periods in the cycle when costs are at their lowest will yield a superior return.”*
- ✱ *“By maintaining low cash costs over the entire production life it ensures returns are maximized regardless of commodity price volatility.”*

The Peyto Strategy

Counter Cyclical Growth Per Share

"Peyto invests aggressively when industry activity is slow and the costs are low (usually when the commodity prices are also low) to deliver superior returns. The result is more profitable growth."

PEYTO

oration & Development Corp.

23%

Growth rate in Prod/div. adj. share (last 9 yrs)

Historical Per Unit (share) and Units (shares) Outstanding numbers have been adjusted to reflect the May 27, 2005 2:1 stock split
 Dividend adjusted assumes dividends used to buy back shares at quarter end share price.
 BOE factor - 6 mcf = 1 bbl of oil equivalent

The Peyto Strategy

Invest For Profit Not Growth

"Peyto's track record of generating \$0.40 of earnings for every dollar of capital invested is the highest in the industry."

Peyto's Assets

Unique Infrastructure Location

"Peyto's Greater Sundance Area plant/gathering/resource sits on Nova, on divided highway, on rail, and on the 3 phase power grid making it perfectly situated for Petchem and power generation infrastructure investments."

- Greater Sundance Area Location Advantages:**
- Nova/Alliance Supply Backstop
 - CN Rail (export)
 - Paved Highway (export)
 - Athabasca River (water supply)
 - 3-Phase Power Lines (generation)
- Attractive For:**
- Petrochemical Production
 - Propane Fractionation/Export
 - Power Generation

Peyto's Assets

Potential For Additional Liquids Extraction

"Peyto's plants are interconnected with liquids sales lines that would allow for deep cut installations and potential fractionation and marketing of pure products. We're also conveniently on CN rail to access export markets."

CN Rail to Prince Rupert – Altagas Ridley Island Terminal

Potential New Peyto "Frac" plant?

Peyto's Assets

The "New" Cardium Play – High Grade Land Base

"Peyto's Sundance Cardium lands are strategically positioned on the updip edge of the Ram Barrier offering the best reservoir quality."

Very Fine Grained Cardium Sand
Typical of Ram Barrier

DEEP BASIN PROGRADING RAM BARRIER CARDIUM

Peyto's Assets

The "New" Cardium Play – Abundant Opportunities

"The Cardium is a very proven resource. Now with more economic well design it can be efficiently developed using all the existing infrastructure."

Total Greater Sundance Cardium Resource*

Proven Resource: 350 BCFe cumulative recovery to YE 2017
(Less than 15% of internally estimated EUR)

Large Inventory: 133 booked/370 internally identified locations¹

Active Program: 40-50 locations planned for 2018

Liquids Rich: 40-60 bbl/mmcft shallow cut liquids (55-75 deep cut)

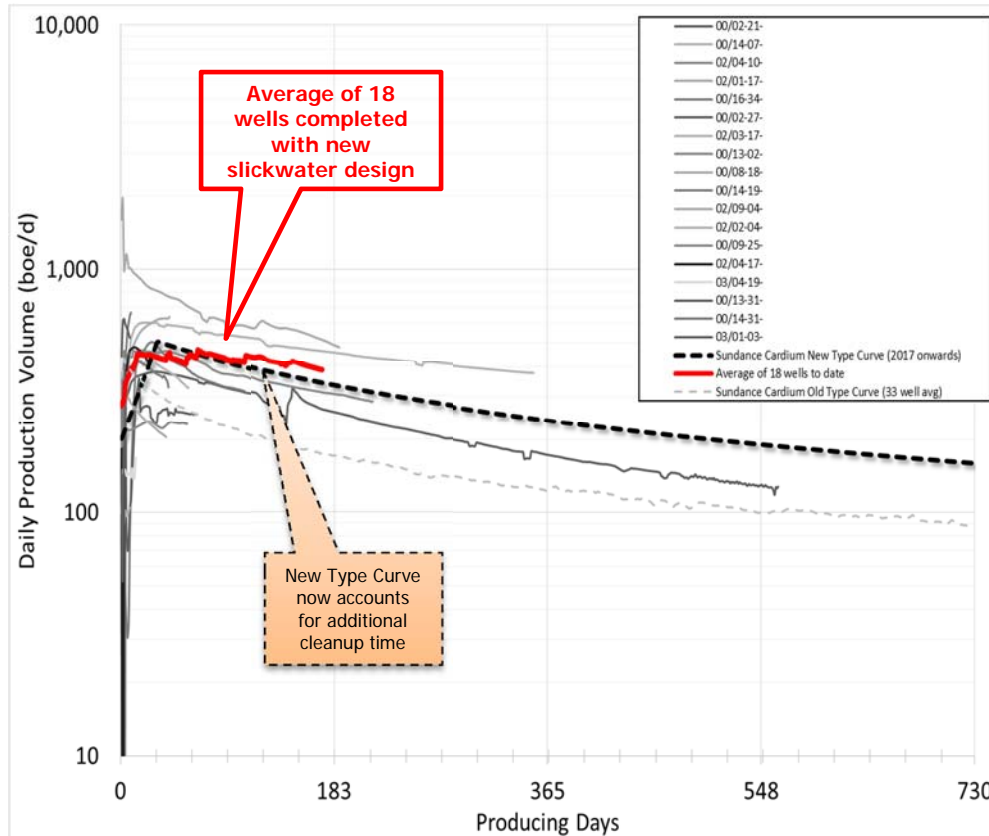

Infrastructure: Already in place (wellsites, pipelines, roads, gas plants, etc.)

• Cardium resource assessment is Peyto's internal estimate of ultimate recoverable under Peyto lands
1. Both internal and booked locations are for the greater Sundance area only. Peyto has additional Cardium lands in it's northern areas

Peyto's Assets

The "New" Cardium Play – A Double

Peyto's Returns

2018 IRRs YTD

"The post mortem IRR of the individual 2018 new wells, using actual capital, confirms the Cardium is offering superior returns. Even with the current condensate discounts."

2018 Wells - YTD
Price Deck: 2018 Actuals and Nov 1 Strip Forecast

Prices Based on Actuals and Nov 1 Strip		
Period	Gas Price (\$/GJ) @AECO	C5+ Price (\$/bbl) @Edm
2018 Q1	1.76	75.08
2018 Q2	0.97	83.11
2018 Q3	1.28	80.65
2018 Q4	1.85	61.02
2019 Q1	2.25	65.39
2019 Q2	1.22	66.76
2019 Q3	1.22	66.75
2019 Q4	1.77	65.86
2020	1.58	81.00
2021	1.78	78.00

Forecast assumes severe condensate discount for 2019

*Includes wells with at least 1 month production history only. Actual well costs used with a provision for other costs (L,S,F) at \$300k/well.

Peyto's Returns

High Returns On Your Capital And Equity

"Investors rarely get to participate in the wells themselves, making type well economics somewhat meaningless. ROE and ROCE are the returns investors get, after deducting corporate costs."

30%

19 yr Avg ROE to 2017

16%

19 yr Avg ROCE to 2017

Return on Equity (ROE) is earnings for the period divided by average shareholders equity – reveals how much profit a company generates with the money shareholders have invested (19 yrs 1999-2017)

Return on Capital Employed (ROCE) is earnings before interest and tax for the period divided by total assets less current liabilities - indicates the efficiency and profitability of a company's capital investments

Peyto's Future

Gas Price Stability Before Returning to Growth

"The outlook for production and capital is very fluid, contingent on the futures curve for AECO gas prices which is changing rapidly. Peyto is nimble and can respond quickly with ramped up Cardium drilling or production shut-ins/deferrals."

* 2019 and beyond provided for illustration only. Budgets and forecasts beyond 2019 have not been finalized and are subject to change due to a variety of factors including but not limited to prior year's results. FFO – Funds from Operations, see definition in Financial Reports. Future illustration derived from historical well performance and cost assumptions.

Peyto's Future

Lower Costs and Increase Liquids to Preserve Profit

"We HAVE to drive down our costs further to protect against a prolonged low gas price. There are no guarantees it will ever go higher. Hope is not a strategy but cost control is."

40-50 bbl/mmcft new adds in 2018/19 increases liq to 14%

BOE factor - 6 mcfe = 1 bbl of oil equivalent

Gas Marketing

Future Market Diversification and Gas Price Protection

"Between hedges and liquid revenue, almost 90% of Peyto's revenue in 2018 was detached from AECO spot prices. Now we are starting to diversify the future."

Average Heating Value of 1.15 GJ/mcf for Peyto's gas
 For a real time summary of Peyto's future hedges see: <http://www.peyto.com/Files/Marketing/hedges.pdf>

Gas Marketing

Minimized AECO Spot Market Exposure

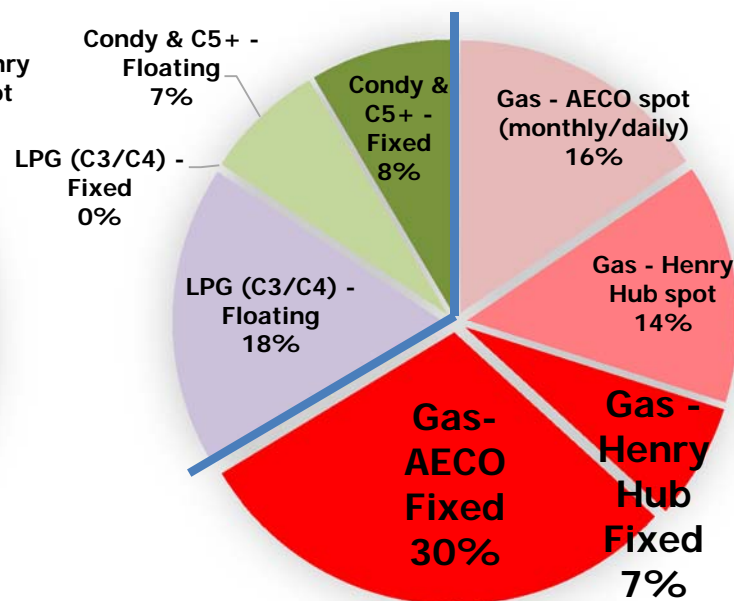

"As we transition to more Cardium production our revenue stream becomes more balanced between gas and liquids."

For a real time summary of Peyto's future hedges see: <http://www.peyto.com/Files/Marketing/hedges.pdf>

•Assumes an Average Heating Value of 1.15 GJ/mcf for Peyto's gas

Gas Marketing

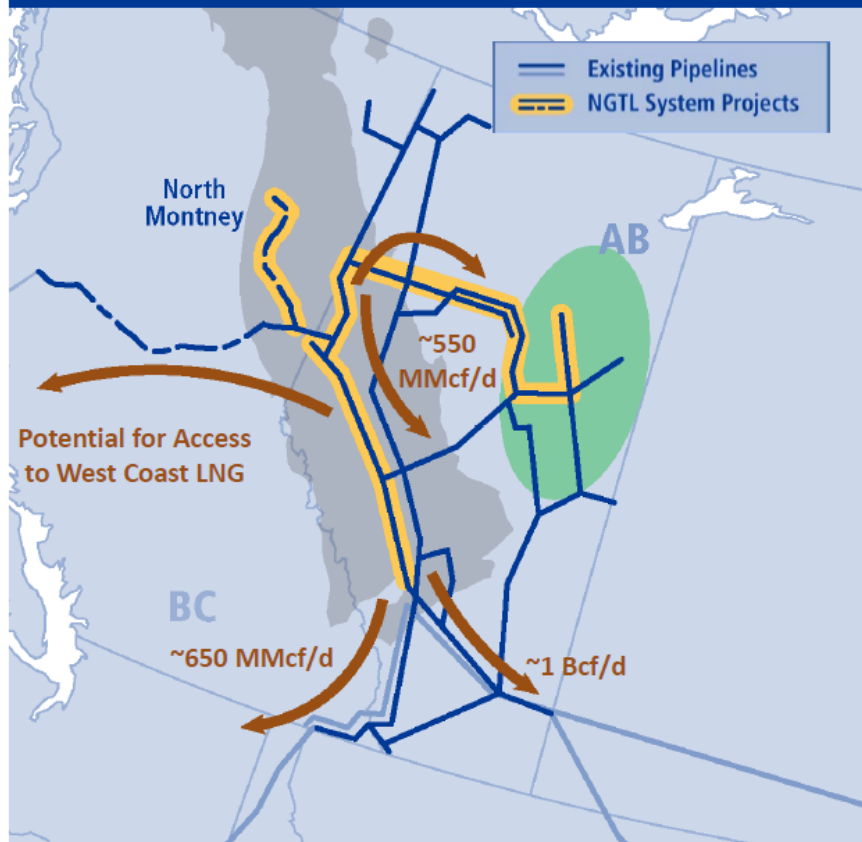

The Good News, Pipe Is Coming

PEYTO

Exploration & Development Corp.

NGTL \$7.2 Billion Capital Program Adds 2.2 Bcf/d of Delivery Capacity by 2021

- **\$7.2 billion capital program supported by long-term firm receipt and delivery contracts**
- **Adds 2.2 Bcf/d of incremental delivery capacity to market**
 - Intra-Alberta delivery capacity to increase by 550 MMcf/d
 - Export capacity at Alberta / B.C. border (effectively GTN) to increase by 650 MMcf/d
 - Export capacity at Alberta / Saskatchewan border to increase by 1 Bcf/d
- **Continue to work with industry on further initiatives to connect growing supply to markets including**
 - Potential restoration of Canadian Mainline capacity
 - West coast LNG

Working with Industry to Facilitate Further Economic Access to Key Markets

Gas Marketing

Supply Driven Market May Be Temporary

"An assumption that we are awash in gas forever is wrong. While production and consumption are up 16% over the last 6 years, Proven reserve life is down 17% meaning we are accelerating existing reserves out of the ground."

¹ Management uses funds from operations to analyze operating performance. In order to facilitate comparative analysis funds from operations is defined throughout this report as earnings before performance based compensation, non-cash and non-recurring expenses. As presented, funds from operations does not have any standardized meaning prescribed by Canadian GAAP.

² Net debt does not include provision for future performance based compensation, site restoration, abandonment and income taxes.

Successful Hedging Strategy Smooths Volatility

"The "dollar cost averaging" approach to our forward sales is to smooth out the volatility and avoid speculation. We target a progressive stepping-down schedule of coverage over the next 3 years."

Peyto's Debt

Careful Use Of Debt For Leveraged Returns

"Peyto has always been conservative with leverage, only recently using a bit more because long term debt is cheap."
